

Technical Question

Department : UI/UX

Task 1 : Creative Designing

Medium : Intermediate

How would you improve the UI/UX of our product?

Hint: You need to create a wireframe based on the provided screenshots. Apply your skill and design a new static skeleton. You can use any languages, tools , libraries you are familiar with.

- Choose any of the two screenshots.
- Your designs should be based on the theme color used on the logo(You can create your own logo)
- Design should be consistent in all the pages.
- Document the major changes you have made in your mockup.(**Optional**)

Submit the final design or mockup by Dec 23, 5:00 PM.
